Acceptable payment methods

20 days ago · Updated

Acceptable Payment Methods:

- Credit Cards (Visa, MasterCard, Discover, and American Express).
- Debit Cards (with Visa or MasterCard logos).
- [Apple Pay](#) & [Google Pay](#) (desktop only).

Notes:

- Prepaid credit/gift cards, ANWB cards, consumer cards, purchase orders, invoices & bank transfers are **not** accepted.
- Existing subscriptions using **PayPal** will continue to renew as intended. New subscribers, or those migrating their subscription, will **not** see PayPal as a payment option.
- **Google Pay** will only appear as a payment option on Chrome. **Apple Pay** will only appear as a payment option on Safari. If you are using the respective browser for each payment method and are not seeing the options to pay using Google Pay or Apple Pay, you will need to activate this option through the browser's settings.

Looking to [update your payment](#) method?

When purchasing a Pro subscription in the Flickr app:

Pro subscriptions purchased in the Flickr app are processed by Google & Apple through their respective app stores. As long as you have linked a form of payment they accept to your App

Store account, you can transact there.
