HTAi 2025 Panel Abstract - Enhancing Collaboration Regulation and HTA.docx;

Hi all,

Hope you are all well. Towards the end of last year, I was in contact about submitting a panel session to the HTAi 2025 meeting in Buenos Aires. We've received confirmation that our panel has been accepted and has been allocated to the conference programme (see details at end of email). I've reattached our submission here in case helpful to review again. This should be a great opportunity to share some reflections on how regulators and HTA can work more closely together to support transformation and adoption of digital health technologies.

HTAi have now published timelines for registration and this should be opening shortly ([link here](#)). So I thought it was a good time to get back in touch and pick up planning for our panel and any practicalities around attendance.

It would be great to arrange a time to meet over the coming weeks. I think with the time zones, from 9am until 1pm Brazil time would fit with our working hours. Could you indicate some times that would work well for you within this and I can then try and arrange?

Thanks,
Gareth

Abstract ID 102

Title: Enhancing Collaboration Between HTA Agencies and Regulators In Digital Health: Insights From The UK And Brazil

Location: Sheraton Buenos Aires Convention Centre at the Sheraton Buenos Aires Hotel, San Martin 1225/1275, Buenos Aires, Argentina 1104

Day: Monday

Date: 6/16/2025
