Nota Metodológica

Para categorias com Coeficiente de Variação (CV) superior a 25%, utilizou-se a MEDIANA como valor de referência, por ser mais robusta a outliers. Para categorias com CV igual ou inferior a 25%, utilizou-se a MÉDIA.

Todos os preços foram coletados diretamente no AWS Marketplace em fevereiro de 2026, com prints de tela comprobatórios. Ajustes proporcionais foram realizados quando necessário (ex: redução de VPCs, IPU ou aplicação de 50% sobre o valor listado).

Prints Comprobatórios – AWS Marketplace

Capturas de tela coletadas em fevereiro de 2026, comprovando os preços publicados no AWS Marketplace para cada software pesquisado.

1 - ENTERPRISE APPLICATION INTEGRATION PLATFORMS

1.1 InterSystems IRIS

The screenshot displays the AWS Marketplace product page for InterSystems IRIS. The page is viewed in a web browser with multiple tabs open. The main content area is titled "InterSystems IRIS" and includes a "View purchase options" button. Below this, the "Pricing" section is active, showing a table of usage costs for a 365-day contract. The table lists various instance types and their corresponding costs and savings percentages. The "m5.2xlarge" instance is highlighted as the recommended option.

Pricing

InterSystems IRIS Info [View purchase options](#)

Pricing is based on actual usage, with charges varying according to how much you consume. Subscriptions have no end date and may be canceled any time. Alternatively, you can pay upfront for a contract, which typically covers your anticipated usage for the contract duration. Any usage beyond contract will incur additional usage-based costs.

Additional AWS infrastructure costs may apply. Use the [AWS Pricing Calculator](#) to estimate your infrastructure costs.

If you are an AWS Free Tier customer with a free plan, you are eligible to subscribe to this offer. You can use free credits to cover the cost of eligible AWS infrastructure. See [AWS Free Tier](#) for more details. If you created an AWS account before July 15th, 2025, and qualify for the Legacy AWS Free Tier, Amazon EC2 charges for Micro instances are free for up to 750 hours per month. See [Legacy AWS Free Tier](#) for more details.

Usage costs **365-day contract - save up to 23%**

1.2 WSO2 API Management

The screenshot displays the AWS Marketplace interface for the WSO2 API Management product. The top navigation bar includes the AWS Marketplace logo and a search bar. The product page header shows the WSO2 logo and the product name 'WSO2 API Management', sold by WSO2. A 'View purchase options' button is visible. The 'Pricing' tab is selected, showing a table with contract durations (12-month, 24-month, 36-month) and a detailed pricing table for the 12-month contract. The pricing table lists the dimension 'WSO2 API Management', the description 'Minimum 4 cores deployment', and the cost of \$104,000.00 per 12 months. Below the pricing table, the 'Vendor refund policy' is listed as 'Not Applicable'. At the bottom, there is a feedback survey asking 'How can we make this page better?'.

Pricing

Posit Team Info [View purchase options](#)

Pricing is based on the duration and terms of your contract with the vendor. This entitles you to a specified quantity of use for the contract duration. If you choose not to renew or replace your contract before it ends, access to these entitlements will expire.

Additional AWS infrastructure costs may apply. Use the [AWS Pricing Calculator](#) to estimate your infrastructure costs.

12-month contract (3) Info

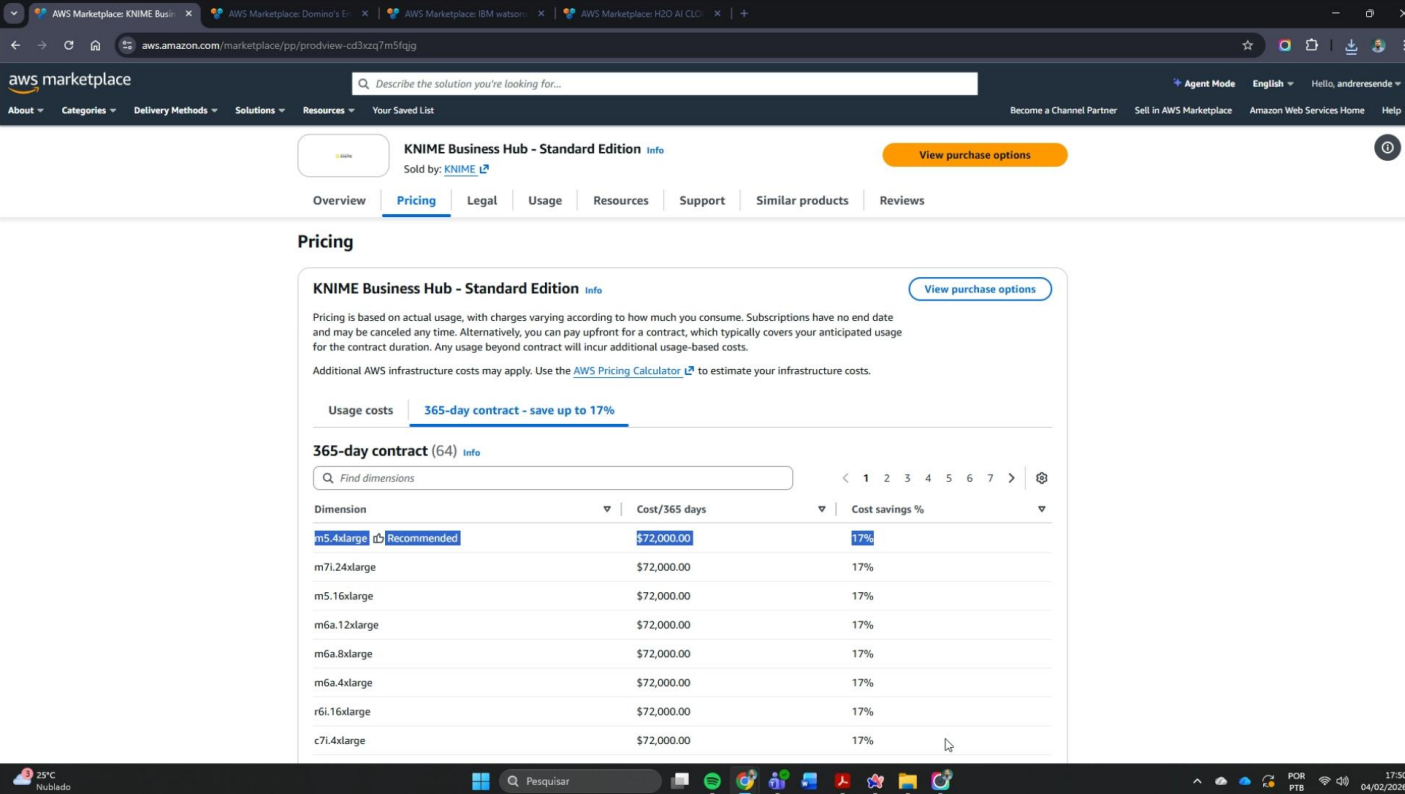

Dimension	Description	Cost/12 months
Posit Team Basic	Teams of 10 developers and 20 business users with basic features	\$41,000.00
Posit Team Enhanced	Teams of 10 developers and 100 business users with enhanced features	\$58,000.00
Posit Team Advanced	Teams of 10 developers and 100 business users with advanced features	\$89,000.00

Vendor refund policy

Refunds can be requested and processed at Posit's discretion by working with Posit support. Please initiate the process by filling out a support request here: <https://support.posit.co/hc/en-us/requests/new>

Pricing

KNIME Business Hub - Standard Edition [Info](#) [View purchase options](#)

Pricing is based on actual usage, with charges varying according to how much you consume. Subscriptions have no end date and may be canceled any time. Alternatively, you can pay upfront for a contract, which typically covers your anticipated usage for the contract duration. Any usage beyond contract will incur additional usage-based costs.

Additional AWS infrastructure costs may apply. Use the [AWS Pricing Calculator](#) to estimate your infrastructure costs.

Usage costs [365-day contract - save up to 17%](#)

365-day contract (64) [Info](#)

Dimension	Cost/365 days	Cost savings %
m5.4xlarge Info Recommended	\$72,000.00	17%
m7i.24xlarge	\$72,000.00	17%
m5.16xlarge	\$72,000.00	17%
m6a.12xlarge	\$72,000.00	17%

c7i.4xlarge	\$72,000.00	17%

6.7 IBM watsonx.ai Software

The screenshot displays the AWS Marketplace page for IBM watsonx.ai Software. The page is titled "IBM watsonx.ai Software" and is sold by IBM Software. The "Pricing" tab is selected, showing a table for a 12-month contract. The table has three columns: Dimension, Description, and Cost/12 months. The first row shows "IBM watsonx.ai software 67 VPC" with a description of "IBM watsonx.ai 67 Virtual Processor Core Subscription License" and a cost of "\$645,200.00". A handwritten note with an arrow points to the cost column, stating "Para 10 VPC \$96.000,00".

Dimension	Description	Cost/12 months
IBM watsonx.ai software 67 VPC	IBM watsonx.ai 67 Virtual Processor Core Subscription License	\$645,200.00

Handwritten note: Para 10 VPC \$96.000,00
