

PTC Creo 10.0 Hardware Support - Hewlett Packard

Last updated: February 02, 2026

All drivers listed in this document are available from your workstation manufacturer. Do not attempt to search AMD(ATI) or NVIDIA websites as those hardware vendors often will only have current (latest) drivers available which in most cases HAVE NOT BEEN TESTED by PTC.

Graphics drivers certified for HP Z workstations are available for download from HP Performance Advisor. For more information about HP Performance Advisor go to <http://www.hp.com/go/hpperformanceadvisor>.

If multiple certified or supported drivers are listed for a particular hardware configuration, PTC recommends using the latest configuration posted.

Microsoft has published the end of Standard Support for Windows 10 as of October 14, 2025. You may continue to run Creo on published releases which are no longer officially supported by Microsoft, however, PTC security policy does not allow using unsupported software. As a result, PTC will only test reported issues on a Microsoft supported OS release.
