

Technical drawing of a parking lot layout. The drawing shows a central area with 14 horizontal parking spaces, each 4,00 m wide and 0,40 m deep. The total length of this area is 14 m. To the left of the parking spaces is a vertical strip 0,40 m wide, containing 14 yellow triangles pointing right. To the right of the parking spaces is a vertical strip 0,50 m wide, containing 14 yellow triangles pointing left. The distance between the two vertical strips is 0,05 m. The entire layout is bounded by a red line on the left and a red line on the right. The drawing includes dimension lines and labels for all measurements.
