## OBSERVAÇÕES:

1º-São necessários 8 praticáveis montados com as seguintes medidas:

3 p/ bateria c/ 40cm de altura

3 p/ teclados c/ 40cm de altura

2 p/ bakings c/ 20cm de altura.

Ambos os praticáveis precisam ter travas, acabamento em carpete e saias.

2º- Painel de Led

- montado chapado no fundo de palco.

Configuração P3 ou P4

- Largura 8m

- Altura 4m

Em caso de não couber a medida solicitada acima, o tamanho do painel de led deverá ser de acordo o tamanho do fundo de palco, ou seja, altura condizente com o pé direto do palco, considerando do piso do palco ao grid, e largura proporcional ao tamanho do palco.

Resumidamente: Painel chapado fechando todo o fundo de palco na sua extensão (LxA) de acordo com o com a projeção técnica de projeto do grid.

O desenho estrutural para sustentação dos equipamentos, dever ser usado apenas como referência. O Designer não possui certificação que garanta a segurança e/ou a estabilidade da estrutura.

O EVENTO é responsável pela certificação estrutural e elétrica dos equipamentos e pela segurança de todos envolvidos no espetáculo.

As duas p-30 de 02 metros fixadas nos sleeve block frontais, são peças **INDISPENSÁVEIS** para a iluminação frontal do artista. Não sendo possível retirar-las quando a montagem utilizar Ground com pés. Caso seja necessário mudar, favor entrar em contato para falar sobre adaptação.

Os 09 Washs led zoom da luz frontal **SÃO INDISPENSÁVEIS** para a iluminação de fotografia da banda, dessa forma, não sendo possível substituí-los por (EX: Par led, Beam, Cob, Elipsoidal).
