

The bar chart displays the frequency of different values for the variable 'precio'. The x-axis, labeled '#Precio total', shows values from 7.7 to 16.1. The y-axis, labeled 'precio', shows values from \$0 to \$5,000,000. The distribution is highly right-skewed, with the highest frequency at 7.7, reaching approximately \$4,800,000. The frequency decreases sharply as the value increases, with most values between 9.2 and 16.1 having frequencies below \$1,000,000.

#Precio total	precio
7.7	\$4,800,000
7.8	\$3,200,000
7.9	\$1,800,000
8.0	\$1,200,000
